# Not just your simple CAMO

**At AMROS Global, we redefine excellence in aircraft technical services. As a leading provider headquartered in Switzerland, our expertise spans across a comprehensive range of solutions tailored to meet the evolving needs of the aviation industry.**

With a global presence and a team of over 150 consultants worldwide, including our subsidiaries in Malaysia and Serbia, we are dedicated to ensuring the airworthiness and optimal performance of aircraft for airlines and lessors worldwide. With over 600 successful aircraft transitions under our belt,

we stand as a trusted partner for airlines of all sizes, from AAA international carriers to local small network airlines. Leveraging cutting-edge technology, including our proprietary AI-based digital technical records management system, we streamline processes and deliver efficient solutions. Whether it's CAMO services, Part21J design engineering, technical asset management, maintenance solutions or parts supply, our commitment to excellence ensures operational efficiency, regulatory compliance, and peace of mind for our clients worldwide.

- Project Management of Aircraft Transition
- Redeliveries and Repossessions Management
- Records Audits
- Physical Inspections
- Annual & Mid-Lease Inspections
- Pre-Purchase Inspections
- Ground Time Management and Supervision
- Cargo Conversion Management and Supervision
- Structural Inspections and 3D Dent Mapping

## Our CAMO Capability

<b>Airbus</b>	A220 Series	A320 Family	A330 Family	A340 Family	A350 Family	A380
<b>Boeing</b>	737	747	757	767	777	787
<b>Embrarer</b>	E-Jet E1 Family	E-Jet E2 Family				
<b>Bombardier</b>	DHC-8 "Q-400"					

## Authority Approvals

## Aircraft Sales & Acquisitions Support

- Aircraft Evaluation
- Feasibility Studies Analysis
- Sale/Lease Agreement Negotiations
- Liquidation and Re-Marketing Strategy

## Components & Maintenance Solutions

- Dedicated Aircraft Transition Components Management
- Material Coordination
- Parts Sales
- AOG Support
- Supply Chain Management
- Initial Provisioning

## Part-21J Design Engineering

- LOPA and EEL Changes
- Interior Modifications
- IFE (Inflight Entertainment) System Integration
- Modification of Cabin Lights
- Integration of ETSO-Certified Avionic LRU's

## Ferry Flight Management

- Ferry, Maintenance, Demo and Test Flights
- Crew Sourcing, Placement and License Validation
- Full Flight Management and Support Capability

## Engine Solutions

- Lease Agreement Negotiations
- Line Maintenance Support
- Shop Visit Support
- Spare Engine Solutions
- PBH & Components Management
- Insurance/Warranty Supervising

- Landing Gear Repair Cycle Management
- APU Repair Cycle Management
- Cabin Interior & IFE Repair Cycle Management
- Heavy & Line Maintenance Tender Management
- Engine Maintenance Tender Management
- Component Maintenance Tender Management
- Warranty Claim Management

- PC-Power System Integration
- Avionic's Reprogramming for Aircraft Transitions (i.e., ATC, ACMS, ACARS, EGPWS Callouts)
- Certification of External Paint Liveries and Decals
- USB Power Retrofit Solutions

## Management Consulting

- Operational Performance Improvement Initiatives
- Financial Performance & Restructuring Initiatives
- Optimization of Maintenance Concepts
- Maintenance Reserve Management
- Interim Management Solutions
